

FY 2010 FREIGHT RAIL SECURITY GRANT PROGRAM (FRSGP)

Vulnerability Assessment and Security Plan Certification Statement

Each railroad carrier must complete a vulnerability assessment of all railroad carrier critical assets and infrastructure, and the carrier's transportation and storage of security-sensitive materials (SSM) in rail cars, excluding residue.

Railroad carriers that have already completed a vulnerability assessment and developed and implemented a security plan that meet the requirements can use the statement below as their certification, and submit it as part of their grant application. All railroad carriers that use this certification form must be able to provide both their existing vulnerability assessment and security plan upon request.

I, [insert name], as [insert title] of [insert name of freight railroad carrier], certify that a vulnerability assessment has been completed and a security plan has been developed and implemented. This vulnerability assessment includes all elements required as listed in the FY 2009 Freight Rail Security Grant Program Guidance and Application Kit. This security plan includes all elements required as listed in the FY 2009 Freight Rail Security Grant Program Guidance and Application Kit.
